COMPANY OVERVIEW

AZMOL-BP is located in **Ukraine, Zaporizhzhya region, Berdyansk**. AZMOL has been manufacturing lubricants for more than 80 years.

The history of the plant started in 30-th of the last century when industrialization required new technologies. The first aviation fuel was produced by Berdyansk cracking plant on November 5, 1937.

In the 1990s AZMOL cooperated closely with **Castrol** on the production of marine oils. AZMOL produced marine oils under specifications and brand name of Castrol, based on formulations and additives received from Castrol Marine Oil GmbH.

COMPANY OVERVIEW

The privatization of AZMOL in autumn, 2016 became a life-line of the plant. The new owners including Terry Dicken, the president of ELGI, consider it necessary to revive the former glory of the plant as the leader of the petrochemical industry in Ukraine, to restore industrial production and return the products of AZMOL-BP trade mark to world markets.

Today, AZMOL-BP successfully supplies more than **500 types of synthetic, semi-synthetic and mineral products**. AZMOL-BP products are used in industrial systems and other fields such as railway, mining, machine tools, marine equipment, energy and metallurgical complexes etc.

AZMOL-BP product range also includes **grease lubricants, coolants and car care products** which are applicable to the tough operating conditions.
